

HNV-Link Thematic Network

High Nature Value Farming: Learning, Innovation and Knowledge

Learning Area

H2020, 2016-2019 - www.hnvlink.eu

Dealurile Clujului Est, Romania Working with key stakeholders to transform the HNV resources in comparative advantages

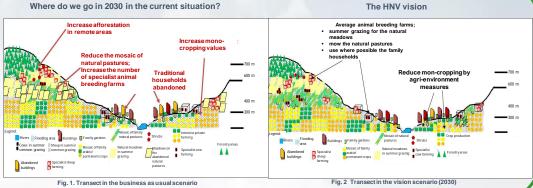

Coordinator: University of Agricultural Sciences and Veterinary Medicine Cluj-Napoca

Baseline Assessment - Main results:

What is the role of agriculture in the development of agro-ecosystems?

- ü The region is recognized for its rich biodiversity on the permanent natural meadows and pastures (agroenvironment resources), as a result of using low-intensive traditional farming techniques from generation generation.
- ü The agricultural practices play a key role in the development/ preservation of agro-environment resources.

Innovations - Main results:

Scale of innovation in Dealurile Cluiului Est

SOCIAL & INSTITUTIONAL

What happened?

1. Initiatives of local NGOs

2. Associative structures: LAG Somes Transilvan; Cooperative Someş Arieş and Cooperative Someşana; AgroTransilvania Cluster.

- Motivate farmers & other actors to use the opportunities offered by HNV farming
- 2. Common innovative actions

PRODUCTS & MARKETS

What happened? 1. On-line selling

Field visits in all LA communes

Data collection for

- Needs:
 1. Small processing capacities
 2. Local HNV brand
 3. Alternative income sources (ecotourism;
- ciclotourism etc).
 4. Alternative distribution channels.

REGULATIONS & POLICY

- What happened?

 1. Agro-environment measures for permanent meadows and pastures & for meadows important for butterflies

 2. Management plan of Natura 2000 Site
- - Neeus:

 1. Adaptation of sanitary-veterinary requirements & CAP requirements to the characteristics of HNV farming 2. Finalizing the cadastral situation

FARMING TECHNIQUES

What happened?

1. Research on the effect of manual mowing vs. Light equipment

Examples of Innovations in the LA and outside the LA

Agro-environmen measure – Package 6: Grasslands important for butterflies

Integrated management plan for Dealurile Clujului Est (Natura 2000 site)

Practical measures for conservation of HNV grasslands

Association for the

Marketing initiatives to valorize HNV products

Steps towards the HNV vision:

- Regional Conference at AGRARIA Fair (farmers, scientists, policy makers EIP Agri, LAG Somes Transilvan, NGOs, press, consumers)
- Cross-visits (Tarnava Mare, Romania; Western Stara Planina Bulgaria; Burren Irland)
- Starting Operational Group in Romanian Rural Development Programme
 LAG Somes Transilvan financed a HNV farmer association (berries)
- Branding of local products Demand for HNV meat; Mobile slaughterhouse in Somesana Bre-Association
- HINV farming as intelligent specialisation strategy in the Romanian North-West Development Region strategy (2020-2027)

2016

201

2030?

- Work seminars in all LA communes with local actors (~ 200 persons)
- Baseline assessment report Innovation Seminar in Bontida (farmers; key environmental NGOs; HNV-LINK team; researchers)
- Innovation Fiches (LA & outside LA)
- Innovation Fair (Portugal)
- Innovation report
- HNV-Link Final Conference
- Project members continue collaboration with local actors
